

ANIKETH K

SOFTWARE ENGINEER · BACKEND DEVELOPER

aniketh123ani@gmail.com | +64 0225416924 | Auckland, NZ | [linkedin.com/in/aniketh-k](https://www.linkedin.com/in/aniketh-k) | keth-portfolio.netlify.app

PROFESSIONAL SUMMARY

Computer Science graduate and current postgraduate student at the University of Auckland pursuing Masters In Artificial Intelligence, with hands-on experience delivering production-grade backend systems using Java, Spring Boot, and PostgreSQL. Proven ability to ship full-stack projects end-to-end from a live e-commerce platform to award-winning hackathon builds and eagerness to contribute to a software engineering team in New Zealand.

EDUCATION

Postgraduate Degree · University of Auckland, New Zealand

Mar 2026 – current

Masters in Artificial Intelligence

B.E. Computer Science & Engineering · Atria Institute of Technology, Bangalore

Nov 2021 – Jun 2025

CGPA: 8.17 / 10.0

TECHNICAL SKILLS

- Java · Python · JavaScript
- Spring Boot · React.js
- PostgreSQL · SQL
- RESTful APIs · Microservices
- HTML5 · CSS3 · Bootstrap
- Git · Spring Security

EXPERIENCE

Junior Software Developer · Eruna Technologies Pvt Ltd, Bangalore

Sep 2024 – Feb 2025

- Built Spring Boot RESTful APIs for a live workforce management product, cutting manual processing time by 20%; migrated services into a microservice architecture to enable independent deployment.
- Optimised PostgreSQL schemas and queries, reducing average API response times by 15% and strengthening data integrity across the application.

PROJECTS

Ito Master – Full-Stack E-Commerce Platform

Jun 2025 – Nov 2025

www.itomaster.com

- Sole developer: designed and launched a complete apparel store (Spring Boot + React.js + PostgreSQL) covering authentication, product catalogue, order management, and payment integration sub-2s load times across 100+ products.

Library Management System

Dec 2025 – Jan 2026

- Constructed a CRUD-complete system with Spring Boot, PostgreSQL, and Spring Security role-based access control; normalized the schema and reduced data retrieval time by 30% vs the initial prototype.

Personal Portfolio

Feb 2026

keth-portfolio.netlify.app

- Responsive HTML5/CSS3/JavaScript portfolio showcasing 5+ projects, deployed on Netlify with continuous delivery.

ACHIEVEMENTS

Beyonders Hackathon Winner — Built a real-time collaborative platform in 24 hrs, outperforming 15+ teams on functionality and UX.

Cicada Hackathon Runner-Up — Led backend architecture for a 4-person team; 2nd of 20+ teams, prototype delivered ahead of schedule.

Web Dev Workshop Lead Instructor — Ran a 4-hr HTML/CSS/JS workshop for 30+ students; 90%+ positive feedback, several launched personal projects.
